

CONTRIBUTION TO TARC EDUCATION FOUNDATION TOWARDS THE CONSTRUCTION OF A STUDENT CENTRE

Each Contribution - Regardless the Amount - Makes a Difference

The construction of a Student Centre was mooted in 2010 when the idea of constructing a hub of student activities in the campus that would inspire creativity and innovation among the students arose. With projected financial outlay of RM 30 million, the Student Centre will be the single largest construction project undertaken in the history of TAR UC. Hence, TAR UC is appealing to all alumni to raise RM 15 million for the construction of the Student Centre.

This noble project will certainly enhance students' development through social interaction and extracurricular activities which are the hallmarks of our TARCian holistic education. As at November 2017, TAR University College has received a total contribution of more than RM1.6 million.
