

More perks for KTAR graduates

Recipients of education fund
can now apply to work in Canon

KUALA LUMPUR:

Recipients of the Canon-Kolej Tunku Abdul Rahman (KTAR) Education Fund will now get additional benefits that include priority in job applications at Canon Marketing Malaysia.

Graduate applications would be vetted and career opportunities would be offered based on available positions, merit and other requirements set out by the company's human resource division.

In a statement yesterday, Canon Marketing (M) Sdn Bhd president and chief executive officer Liew Sip Chon said the priority job application benefit was added after considering the need to build careers besides helping in the education of the recipients.

Apart from job application, three high achievers from the pioneer recipients of the loan will also be awarded with Canon cameras worth RM1,000 as an encour-

agement to maintain their excellence.

"In view of the graduation season, the students will also be given a complimentary Canonfoto book that will tell a story of their campus life right up to their graduation ceremony," he said.

An MoU was signed recently between Liew and KTAR principal Dr Tan Chik Heok and witnessed by Port Klang Authority chairman Datuk Lee Hwa Beng, who is also a KTAR alumni.

The total allocated for the fund is more than RM500,000.

The first batch of seven recipients will be graduating in April next year.
