STUDENTS SHINE

UNKU Abdul Rahman College (TAR College) is one institution where secondary school leavers can expect plenty of great opportunities to excel awaiting them.

It has always been at the heart of TAR College's educational mission to provide quality education and a wholesome learning experience to young Malaysians, with the aim of helping them realise their full potential and be well-equipped for an increasingly competitive and innovation-driven global market.

To provide students with a holistic education and a conducive learning environment, TAR College offers various extra-curricular programmes and workshops that help students in their personal development as well as enhancing soft skills. These skills will give them the competitive edge that opens doors to employment opportunities upon graduation and take them far.

Last year, TAR College Advanced Diploma in Commerce (Financial Accounting) graduates Cheah Sze Ling and Rebecca Chan Ling Ling made the college as well as their families and friends proud when they grabbed the first and second placing of the Association of Chartered Certified Accountants (ACCA) Malaysia Top Affiliates in the June 2008 ACCA examination.

Cheah and Chan were ranked first in Malaysia and second in the world for ACCA professional level papers P4 and P5 respectively. Indeed, this is not their first time winning an ACCA subject prize as both of them also emerged top in Malaysia for a professional level paper in the December 2007 ACCA examination.

Besides that, two TAR College business management graduates Woo Vi Dea and Gan Shiu Fong also did exceptionally well in the June 2008 Institute of Chartered Secretaries and Administrators (ICSA) professional examination and won three out of the four prizes awarded to the top performers in Malaysia.

Other achievements that have put TAR College in the limelight include the awards attained by its Pre-University Studies students.

In October last year, three A Level students were presented with the Cambridge Brilliance in Malaysia Awards for their excellent performance in the December 2007 examination – Tan Leer Ngai for the ‘Top in the World for Mathematics’ award, Chan Huey Hoong for ‘Top in Malaysia for General Paper’ award, and Loy Kai Yin for ‘Top in
